[63-202 added 1996, ch. 98, sec. 3, p. 321.]

63-203. ALL PROPERTY SUBJECT TO PROPERTY TAXATION. All property within the jurisdiction of this state, not expressly exempted, is subject to appraisal, assessment and property taxation.

[63-203 added 1996, ch. 98, sec. 3, p. 321.]

63-204. CLASSES OF PROPERTY. For the purpose of assessment and property taxation, all property within the jurisdiction of this state is hereby classified as follows:

- Class 1. Real Property,
- Class 2. Personal Property, and
- Class 3. Operating Property.

[63-204 added 1996, ch. 98, sec. 3, p. 321.]

63-205. ASSESSMENT -- MARKET VALUE FOR ASSESSMENT PURPOSES. (1) All real, personal and operating property subject to property taxation must be assessed annually at market value for assessment purposes as of 12:01 a.m. of the first day of January in the year in which such property taxes are levied, except as otherwise provided. Market value for assessment purposes

shall be determined according to the requirements of this title or the rules promulgated by the state tax commission.

(2) Personal property coming into the state after January 1 shall be assessed as of the date of entry into the state in accordance with sections [63-311](#)(3) and [63-602Y](#), Idaho Code.

[63-205 added 1996, ch. 98, sec. 3, p. 321.]

63-205A. ASSESSMENT -- MARKET VALUE FOR ASSESSMENT PURPOSES OF SECTION 42 LOW-INCOME PROPERTIES. (1) Section 42 of the Internal Revenue Code and related regulations govern the housing tax credit established under the 1986 tax reform act, as amended, and provides an incentive for developers to provide safe and sanitary housing for individuals and families earning no more than sixty percent (60%) of the area median income as determined by the U.S. department of housing and urban development (HUD), which income and rent restrictions remain in place as provided for in the tax credit regulatory agreement between the owner and the Idaho housing and finance association.

(2) The market value for assessment purposes of section 42 low-income properties shall be determined by the county assessor using the following criteria:

(a) The sales comparison approach using similar rent restricted properties, the cost approach, and the income approach, shall be considered in valuing section 42 low-income properties. The cost approach shall include an economic obsolescence factor associated with the income and rent restrictions provided with each development's tax credit regulatory agreement with the Idaho housing and finance association. The three (3) approaches will be reconciled into a single property value.

(b) Net operating income to be capitalized in the income approach shall not include the amount of housing tax credits. However, the amount of such credits shall be added to the capitalized net operating income using one (1) of the following procedures:

(i) Except as provided in subsection (2)(b)(ii) of this section, for properties for which housing tax credits have been received prior to January 1, 2009, and for properties subject to new regulatory agreements on or after January 1, 2009, the total dollar amount of such credits shall be divided by the total number of years in the regulatory agreement;

(ii) For properties for which housing tax credits originally were received, but which are no longer receiving such credits as of January 1, 2009, no amount shall be added; or

(iii) For properties previously receiving housing tax credits, but subject to a new regulatory agreement on or after January 1, 2009, the total amount of housing tax credits pursuant to the new agreement shall be divided by the number of years in the new regulatory agreement. This amount shall supersede and be substituted for any amount previously calculated.

Net operating income shall be capitalized into value using a market derived capitalization rate. To determine the net operating income, effective gross income shall be reduced by costs customary to section 42 operations, including normalized operating expenses plus all compliance, audit, asset management and other fees, but not general partner fees, as well as those costs set forth in each development's tax credit regulatory agreement with the Idaho housing and finance association.

(c) The Idaho state tax commission shall gather market data to determine market derived capitalization rates for section 42 low-income properties from section 42 property sales. Determination of the market derived capitalization rates for section 42 low-income property sales shall include both actual net operating income and calculated tax credit income consistent with the formula in subsection (2) (b) of this section. The Idaho state tax commission shall then make the information available to each county assessor. If fewer than three (3) comparable sales of section 42 low-income properties are available, then a capitalization rate derived from properties with no federal project based assistance shall be used. As used in this section, "comparable" shall mean section 42 low-income properties with no federal project based assistance. A sale of a section 42 low-income property shall not be considered as a comparable sale if the buyer of that property receives a new allocation of section 42 tax credits from the Idaho housing and finance association.

(d) Beginning in 2010, the owners of properties described in this section shall provide to the Idaho state tax commission no later than April 1 of each year, such financial statements from the prior year as are customarily prepared in the ownership and operation of any section 42 property. For 2009, said financial statements shall be provided no later than May 1. In addition, no later than May 1 of 2009 or, for new developments with housing tax credits or new allocations, by April 1 of the first year of any tax credit regulatory agreement, the Idaho housing and finance association shall provide to the Idaho state tax commission statements ascertaining the dollar amounts of housing tax credits that have been allocated to each section 42 property, the year such credits were first paid, and the total number of years in the regulatory agreement. The Idaho state tax commission shall then make the financial statements and tax credit information required under this section available to each county assessor. If such information is not made available to the Idaho state tax commission and county assessors, each county shall substitute market rent apartment derived expenses and income for section 42 low-income properties.

(e) The Idaho state tax commission shall have the authority to promulgate rules dealing with the enactment and enforcement of this section.

(f) If the use of the income approach as described in subsection (2) (b) of this section results in an assessed value lower than would be obtained if the income approach in subsection (2) (b) of this section were not used, the difference will be exempt.

[63-205A, added 2009, ch. 140, sec. 2, p. 422; am. 2013, ch. 7, sec. 1, p. 15.]

63-205B. ASSESSMENT OF OPERATING PROPERTY OF RATE-REGULATED ELECTRIC UTILITY COMPANIES. (1) In the assessment of the operating property of rate-regulated electric utility companies, the market value shall be determined by the state tax commission by applying applicable law, statutes, property tax administrative rules and the following criteria:

(a) Depending on the weighting placed on the income approach, as described in paragraph (d) of this subsection, no more than twenty percent (20%) weight shall be placed on the cost indicator when utilizing the historic cost less depreciation (HCLD) method in the system value correlation.

(b) In the income approach, income to be capitalized will be normalized, utilizing the gross domestic product implicit price deflator from the United States department of commerce, bureau of economic analysis, by using an average of at least the previous four (4) years' net operating incomes and by adjusting each year's net operating income for unusual nonrecurring items.

(c) In the income approach, a market discount rate will be determined, and to that rate a flotation cost component of twenty hundredths of one percent (0.20%) will be added.

(d) A weighting between eighty percent (80%) and one hundred percent (100%) will be placed on the income approach in the system value correlation.

(e) Within the market approach, a sales comparison approach may be used if reliable data is available and appropriate comparison adjustments can be made. No weight will be placed on a stock and debt approach in the system value correlation.

(f) For rate-regulated electric utility companies, the weightings prescribed in this section shall control the weightings used in the system correlation or reconciliation.

(2) Subsection (1) (a) of this section shall be construed to mean that the use of no more than twenty percent (20%) weight placed on the cost indicator, when utilizing the HCLD method to calculate the cost approach, accounts for any and all forms of depreciation, including any and all forms of obsolescence, and the appraiser shall not consider any further obsolescence.

(3) The state tax commission is hereby authorized to promulgate rules to implement the provisions of this section.

[63-205B, added 2014, ch. 76, sec. 1, p. 201; am. 2017, ch. 15, sec. 1, p. 26.]

63-205C. VALUATION OF AGRICULTURAL LAND. (1) The market value of land actively devoted to agriculture is its actual use value. Actual use value shall be established by capitalization of economic rent or long-term average crop rental at a capitalization rate that shall be either the rate of interest charged by lenders in the local area for agricultural property loans or by the Spokane office of the farm credit system, each averaged over the immediate past five (5) years, whichever is higher, plus the local tax rate.

(2) "Land actively devoted to agriculture" means that property defined by section [63-604](#), Idaho Code. For purposes of this section, the act of platting land actively devoted to agriculture does not, in and of itself, cause the land to lose its status as land being actively devoted to agriculture if the land otherwise qualifies for the exemption under this section.

(3) Land actively devoted to agriculture shall not be valued at its speculative value as development property until the use has changed and it is no longer actively devoted to agriculture.

(4) Rental rates, interest rates, commodity prices, and input prices or other landlord expenses typical to the county of the property being assessed shall be used.

(5) The state tax commission shall adopt rules implementing the provisions of this section that shall provide the procedure by which economic rent, average crop rental, and capitalization rates shall be established.

[ (63-205C) 63-602K added 1996, ch. 98, sec. 7, p. 352; am. 2004, ch. 27, sec. 4, p. 44; am. 2006, ch. 233, sec. 3, p. 693; am. and redesign. 2020, ch. 313, sec. 1, p. 889.]

63-206. LIEN OF PROPERTY TAXES. (1) All property taxes levied upon real property shall be a first and prior lien upon the real property assessed therefor, and shall only be discharged by the payment or cancellation of the property taxes as provided in this title.

(2) In addition, all property taxes levied upon personal property or operating property shall be a first and prior lien upon that property and the personal, operating or real property of the same owner thereof, whether the property is exempt from execution or not, and no personal property or operating property of any kind shall be exempt from such lien, except as otherwise provided by law. Such lien shall attach as of the first day of January in that year, or as of the date of entry into the state, or as of the date the property became subject to property taxation, and shall be discharged only by the payment or cancellation of the property taxes as provided in this title.

(3) Property tax liens shall be perpetual and continuous on all personal, operating and real property.

(4) It shall be unlawful for any person, corporation or other owner of real property to destroy the lien of taxes provided for in this section by removing any improvements therefrom or cutting and removing the standing timber thereon without first securing the payment of all delinquencies upon such real property, and property taxes for the year in which such improvements or timber are removed. The lien upon any such improvements or timber shall continue after such improvements have been removed or the timber cut from such real property. Such taxes shall be due and collectible immediately upon the commencement of the severance and unless paid upon the demand of the tax collector it shall be the duty of the county attorney to commence an action for the collection of such taxes in the district court of the county in which the property is situated. Such improvements or timber may be levied upon and sold in the same manner as is now provided by law for the sale of real property upon execution, and the county or any taxing unit affected may maintain an action in the proper court for injunction to restrain the removal of any improvements or the cutting or removal of standing timber from any real property against which there are any unpaid property taxes.

[63-206 added 1996, ch. 98, sec. 3, p. 321.]

63-207. ASSESSMENT OF PROPERTY. (1) All real and personal property, except as otherwise provided in [title 63](#), Idaho Code, shall be assessed by the assessor of the county in which it is situated.

(2) All operating property shall be assessed by the state tax commission.

[63-207 added 1996, ch. 98, sec. 3, p. 322.]

63-208. RULES PERTAINING TO MARKET VALUE -- DUTY OF ASSESSORS. (1) It shall be the duty of the state tax commission to prepare and distribute to each county assessor and the county commissioners within the state of Idaho, rules prescribing and directing the manner in which market value for assessment purposes is to be determined for the purpose of taxation. The rules promulgated by the state tax commission shall require each assessor to find market value for assessment purposes of all property, except that expressly

exempt under [chapter 6, title 63](#), Idaho Code, within his county according to recognized appraisal methods and techniques as set forth by the state tax commission; provided, that the actual and functional use shall be a major consideration when determining market value for assessment purposes.

(2) To maximize uniformity and equity in assessment of different categories of property, such rules shall, to the extent practical, require the use of reproduction or replacement cost less depreciation as opposed to historic cost less depreciation whenever cost is considered as a single or one (1) of several factors in establishing the market value of depreciable property. The state tax commission shall also prepare and distribute amendments and changes to the rules as shall be necessary in order to carry out the intent and purposes of this title. The rules shall be in the form as the commission shall direct, and shall be made available upon request to other public officers and the general public in reasonable quantities without charge. In ascertaining the market value for assessment purposes of any item of property, the assessor of each county shall, and is required to, abide by, adhere to and conform with rules promulgated by the state tax commission.

[63-208 added 1996, ch. 98, sec. 3, p. 322.]

63-209. ASSESSOR'S PLAT RECORD. The assessor must have prepared a full, accurate and complete plat record of all parcels of real property within his county. Township, range and section lands shall be platted thereon in such manner as to correspond with the technical description of such lands as described by the government survey thereof. Subdivision, townsite, and metes and bounds lands shall be platted thereon according to the official record thereof. The plats shall be prepared pursuant to rules promulgated by the state tax commission which shall establish scales and other criteria. All parcels of real property shall be numbered pursuant to a uniform numbering system to be established by the state tax commission and such parcel numbers shall be used as one (1) means of identifying such parcels. Such numbers shall be used on all records in county offices and shall appear on valuation assessment and tax notices. All necessary and reasonable expense incurred by the assessor in complying with the provisions of this section shall be a legal claim against the county.

[63-209 added 1996, ch. 98, sec. 3, p. 322.]

63-210. TAX NUMBERS FOR METES AND BOUNDS DESCRIPTIONS. (1) The assessor shall give to each tract of land described by metes and bounds a tax number which shall be recorded with the county recorder without fee. This number shall be placed on the property roll to indicate the certain piece of land bearing such number, and entered on the plat record to indicate what tract is designated by such tax number, and no further description of such land shall be necessary upon the property roll. Whenever a tract of land which has been given a tax number is subdivided, the assessor shall give each subdivision a new tax number, which number, with an accurate description of the tract of land designated by such new number, shall be included in his list of tax numbers.

(2) In all cases where the description of any tract of land, or any lot or subdivision of land, or where the description of one (1) or more of the different parts or parcels thereof, cannot, in the judgment of the assessor, be made sufficiently certain and accurate for the purposes of assessment, the assessor shall notify the county recorder thereof, and the county

recorder shall thereupon proceed to have such land platted in the same manner as provided for in section [50-1314](#), Idaho Code.

[63-210 added 1996, ch. 98, sec. 3, p. 323.]

63-211. ABSTRACT OF STATE LANDS. (1) It shall be the duty of the director of the state department of lands to furnish to each assessor of each county in the state without fee a copy of each land sale certificate whenever a sale has been held and a certificate has been issued showing the land description, date of sale, purchase price, amount paid in cash, and schedule of annual payments, and a copy of each timber sale contract whenever a sale of timber has been made and contract issued showing date of sale, description of land involved, purchase price, and estimated volume of timber.

(2) It shall also be the duty of the director of the state department of lands to notify the assessor of each county when a cancellation, assignment or reinstatement of a state land sale certificate or a cancellation or assignment of a state timber sale contract has been made.

(3) It shall be the duty of the county tax collector to notify the director of the state department of lands of any property tax delinquency on a state land sale certificate or on a state timber sale contract within thirty (30) days of the date of such delinquency.

[63-211 added 1996, ch. 98, sec. 3, p. 323.]

63-212. ESTATES -- CLAIMANTS -- AGENTS -- UNDIVIDED INTEREST. (1) When the property assessed is the unpartitioned property of a deceased person, the name of the heirs, guardian, executor or administrator may be inserted on the property roll, and the payment of property taxes on such property by any such person binds the estate for the repayment of the amount of such property taxes to such person, and binds all parties in interest for the repayment of their just proportions of the amount of such property taxes to such person.

(2) Whenever a person claiming property and desiring to pay the property taxes thereon is not named as the owner he may have his name inserted on the property roll with that of the person named, if so documented with a recordable document.

(3) Whenever a person has an agent for the payment of property taxes, the name of such agent may be inserted upon request, and in the taxpayers index.

(4) An undivided interest in real property may be appraised, assessed and taxed as such. The payment of all property taxes on an undivided interest in any real property assessed as such discharges all liens attached to such undivided interest on account of such property taxes.

[63-212 added 1996, ch. 98, sec. 3, p. 323.]

63-213. DOUBLE ASSESSING PROHIBITED. (1) Property which has been assessed for taxation in any county in this state shall not be assessed again for taxation for the same purposes or period of time in any other county in this state for the same year.

(2) In all questions which may arise as to the proper place to assess property for taxation purposes, if between two (2) or more places in the same county, the place for assessing the same shall be determined and fixed by the county commissioners, and if between two (2) or more counties, or different places in two (2) or more counties, the place for assessing the same shall

be determined and fixed by the state tax commission, and when fixed shall be binding.

[63-213 added 1996, ch. 98, sec. 3, p. 324.]

63-214. DESCRIPTION OF PROPERTY. In all proceedings relating to the assessment of property for taxation, or the levy and collection of property taxes, it shall be sufficient to designate the amount of property taxes and the amount, value and description of property by tax number, initial letters, abbreviations, figures, fractions and exponents. Such designations must be sufficiently plain to clearly set forth the amount of property taxes and the amount, value and description of the property. All property which has been sold for property taxes and all foreclosure proceedings on property under this title must be fully and accurately described.

[63-214 added 1996, ch. 98, sec. 3, p. 324.]

63-215. LEGAL DESCRIPTION AND MAP OF BOUNDARIES TO BE RECORDED AND FILED. (1) Any taxing district which shall be formed or organized hereafter, or which shall change any existing boundaries hereafter, shall cause one (1) copy of the legal description and map prepared in a draftsmanlike manner which shall plainly and clearly designate the boundaries of such district or municipality as formed or organized, or as altered, to be recorded with the county recorder and filed with the county assessor in the counties within which the unit is located and with the state tax commission within thirty (30) days following the effective date of such formation, organization or alteration but no later than the tenth day of January of the year following such formation, organization or alteration. In the case of fire protection districts, the board of county commissioners approving the boundaries shall be responsible for delivering to the assessor and recorder the map and legal description of the amended district boundaries. Formation, organization or alteration documents that are filed pursuant to this section shall include contact information that is current at the time of filing and that identifies an individual associated with the taxing district.

(2) Urban renewal agencies shall comply with the requirements of subsection (1) of this section when a revenue allocation area within the jurisdiction of the urban renewal agency is formed or when the boundaries of such an area are altered.

(3) The state tax commission shall review filings required by subsections (1) and (2) of this section and if the commission finds that the formation of a district or a change in a district's boundaries fails to provide a proper legal description or fails to correctly identify the boundaries, the state tax commission shall notify the affected taxing authority within twenty-eight (28) days after receiving the original request. The notification shall list any errors or omissions in the submitted map and legal description along with any possible remedies to correct said errors or omissions. The taxing authority shall be provided an additional twenty-eight (28) days after receiving the requested change from the state tax commission to provide a corrected map and legal description. If the corrected map and legal description fail to correctly identify the boundaries or change of boundaries of the taxing district, as was listed in the state tax commission's notification, then the state tax commission may direct that the formation or change not be recognized for property tax purposes. The state tax commission's review shall not include matters relating to notice, open meet-

(4) The county assessor, county auditor and state tax commission shall retain on file in their respective offices all copies of legal descriptions of taxing district boundaries and maps filed by the various taxing jurisdictions authorized to impose a levy on property.

(5) The state tax commission shall be responsible for providing copies of uniform tax code area numbers and maps to the county assessor, county auditor and county treasurer and various companies having operating property subject to assessment in the state of Idaho and under the jurisdiction of the state tax commission for assessment and taxation purposes.

For purposes of this title, a postage meter cancellation shall not be deemed a post office cancellation mark.

(b) Mailed but not received by the state or political subdivision or where received and the cancellation mark is illegible, erroneous or omitted, shall be deemed filed or made and received on the date it was mailed if the sender establishes by competent evidence that the report, claim, tax return, statement or other document or payment was deposited in the United States mail on or before the date for filing or paying; and in cases of such nonreceipt of any such report, claim, tax return, statement or other document or payment required by law to be filed or made, the sender files with the state or political subdivision a duplicate within fifteen (15) days after written notification is given to the sender by the state or political subdivision of its nonreceipt of such report, claim, tax return, statement, or other document or payment.

(2) If any such report, claim, tax return, statement or other document or payment is sent by United States mail and either registered or certified, a record authenticated by the United States post office of such registration or certification shall be considered competent evidence that the re-

port, claim, tax return, statement or other document or payment was delivered to the state officer or state agency or officer or agency of the political subdivision to which addressed, and the date of registration or certification shall be deemed the postmarked date.

(3) Any reference in this section to the United States mail shall be treated as including a reference to any delivery service designated by the secretary of the United States department of treasury under section 7502 of the Internal Revenue Code. 63-218. REPRODUCTION OF RECORDS -- DESTRUCTION OF ORIGINALS AUTHORIZED -- ADMISSIBILITY IN EVIDENCE. (1) The state tax commission or any political subdivision of the state of Idaho may retain any document in a different form or medium from that in which it is received, provided that the form or medium in which the document is retained results in a permanent record which may be accurately reproduced during the period for which the document must be retained under any tax law administered or enforced by the state tax commission. The original document, once reproduced, may be disposed of or destroyed.

(2) A document retained in any form or medium permitted under this section shall be deemed to be an original public record for all purposes. (1) The state tax commission shall develop, maintain and enforce statewide systems for the preparation of property rolls and related documents and procedures and for uniform parcel numbering. Said systems shall provide related information specified by the state tax commission.

(2) The state tax commission shall prescribe forms and documents to be used to comply with the requirements of subsection (1) of this section when the information contained in said forms and documents is needed by the tax commission. The appropriate county official may request that the state tax commission consider an alternate, but equivalent, system for the preparation of property rolls and related documents. If the county official demonstrates equivalence to the satisfaction of the state tax commission, the state tax commission may, at its discretion, permit the alternate system to be used. Alternate forms or documents to be provided at county expense may be used if submitted to the state tax commission prior to use and if, in

the opinion of the state tax commission, the alternate forms or documents are equivalent to the forms or documents provided by the state tax commission.

(3) Forms or documents required to comply with the provisions of subsection (1) of this section may be prescribed by the appropriate county official, provided that the information on said forms or documents is not needed by the state tax commission. Said forms or documents must be provided at county expense and a copy of each separate form or document must be filed with the state tax commission prior to use.

(4) The state tax commission shall, at its expense, provide aid to the counties on numbering, mapping and software for implementation of this program, and shall, at its expense, provide uniform valuation assessment notices to the county assessor and property tax notices to the county tax collector.

(2) Before granting any extension the board of county commissioners shall provide a procedure for affected taxpayers to justify the extension and provide such other information as the board may require to support the taxpayer's application.

(3) No extension granted under this section shall be for a period in excess of sixty (60) days.

(4) In all cases where the board has granted an extension under this section, payment of the tax shall not be subject to any late filing penalty or interest if payment of the tax is made on or before the extended due date. Failure to make payments on or before the extended due date will thereafter cause the imposition of penalty and interest.

(5) When, as a result of relief granted under this section, a county official or state agency is unable to comply with a provision in this title requiring an action by a specified date, the action may be delayed only for such reasonably necessary time as the state tax commission approves, but not to exceed sixty (60) days.
